GRANT

HEAVY DUTY TRUCK

This catalog introduces Grant's new Heavy Duty Truck Steering Wheels. This new line of products is dedicated to the Heavy Duty Truck driver. It is our intention to offer the most comfortable and luxurious steering wheels in the world.

The catalog showcases custom steering wheels and accessories for the Heavy Duty Truck, Motorhome and RV drivers. Grant Products manufactures custom steering wheels that are designed to be physically comfortable and aesthetically pleasing. The shape of the rim is contoured to fit the shape of the hand for maximum driving comfort.

Our selection of Heavy Duty Truck Wheels includes a wide variety of finishes and styles. The wheels are manufactured to precision standards from the finest materials. The craftsmanship of our wood wheels is excellent. The wood wheels feature a clear coat finish, that provides strength and a shine that will provide years of use.

Grant was founded in 1922 as a manufacturer of piston rings and engine kits. The company began manufacturing custom steering wheels in 1966 for the automotive and marine markets. Over the years Grant has become the leading manufacturer of custom steering wheels.

Grant offers innovative products, fine quality, distinctive style, solid value and a selection of designs to express your individual personality.

TRUCKER WHEELS

HEAVY DUTY TRUCK

TRUCKER 4

The Trucker 4 Wheels offer durability, comfort and style at an attractive price point that makes the wheels some of our best sellers. The Trucker 4 Wheels feature a chrome finish four spoke design. The rim is black polyurethane. The wheels feature a choice of fashionable horn pads to create a perfect blend of functionality and personality.

The Trucker 4 is an excellent choice of wheel to dress up your truck or motor home. It is a great replacement for an old worn out factory wheel. The Trucker 4 Series can add a custom look and comfortable feel at an economical price.

The wheels are 18" diameter, with a 2 1/4" dish.

- Black polyurethane rim
- Chrome finish steel spokes
- Choice of stylish center pads
- 18" diameter wheel

HIGHWAY 4 WHEELS

HEAVY DUTY TRUCK

Comfort is a direct product of the Highway 4's contour design. The sculptured ergonomic shape puts the hands at ease. The entire rim is constructed of the finest Italian leather and features a perforated texture at the 3 o'clock and 9 o'clock positions for added driving comfort. The Highway 4 wheels have aluminum spokes with highly polished finish or matte black anodized finish. The wheels feature horn pads and thumb grip inserts for a sporty look. The wheels are 17 3/4" diameter, with 2 1/4" dish.

- Leather rim with perforated design
- Aluminum spokes
- 17 3/4" diameter wheel

STARTRUCK 4 WHEELS

HEAVY DUTY TRUCK

The Startruck 4 wheels offer an elegant blend of our finest materials. The burlwood design rim combines with soft Italian leather and textured polyurethane to create a high quality and overall comfortable steering wheel. The 4-spoke design has a chrome finish. A choice of horn pads is the finishing touch for the Startruck 4 wheel. The wheels are 18" diameter, with a 2 1/2" dish.

The burlwood design steering wheels are constructed on a steel based reinforced ABS substraight and covered in a realistic burl print. Our burlwood design rims showcase elegant grain while remaining cost effective and environmentally friendly.

- Burlwood design rim with leather and polyurethane
- Chrome finish steel spokes
- 18" diameter wheel

INSTALLATION KITS

HEAVY DUTY TRUCK

TO INSTALL YOUR NEW GRANT STEERING WHEEL ON TO YOUR TRUCK OR MOTORHOME THE CORRECT INSTALLATION KIT IS REQUIRED.

-SEE APPLICATION CHART

Grant Installation Kits include the hub adaptor unit, all necessary hardware and instructions needed in order to install your new steering wheel.

The Grant Installation Kits are designed for use with Grant Heavy Duty Truck

Steering Wheels only. Grant Automotive wheels are not designed to be used on Heavy Duty Trucks.

By separating the Installation Kit from the steering wheel, Grant allows its distributors to maintain a more efficient inventory, at the same time giving the end user the freedom upgrade to a newer Grant Steering Wheel without tampering with the delicate spline of the steering column. Drivers also gain the ability of taking their Grant wheel with them to a new Truck or Motorhome by only purchasing a new adaptor.

MERCHANDISING

HEAVY DUTY TRUCK

Grant offers two types of "Hands On" Promotional Displays. The real value of this type of product is the ability to feel the difference. The customer will have the opportunity to physically bond with the steering wheel of his or her choice.

990D Counter Display

This display holds 1 wheel. The Counter Display is perfect for counter or table top applications and is sturdy enough to allow customers to place their hands on the steering wheel.

Dimensions: Base 5" x 11"
Height 20"

991D Column Display

This display holds up to 6 wheels. The Column Display holds 3 wheels on the front and 3 wheels on the back. This two sided and space efficient display allows steering wheels to be facing in two directions. Optionally the display can be fitted with rollers for easy mobility.

Dimensions: Base 20" x 20"
Height 6' 7"
